National Schools Squash
Schemes of Work for Secondary Schools
Years 7-11 (KS3 and KS4) + GCSE

Includes:
- Long-term Plans (Key Stage Overview)
- Medium-term Plans (Year Group Overview)
- Short-term Plans (Weekly Lesson Content and Fact Sheets/Resources)
Preface

The aim of this resource is to provide a clear framework that teachers and other physical education and school sport professionals can use to develop squash in secondary schools. It provides detailed schemes of work and lesson plans that secondary colleagues will find invaluable. It links effectively to the current National Curriculum (Key Stages 3 and 4) and provides challenging activities. It strengthens the link between school and extra-curricular activities and competition (School Games), and there is also focus on literacy, physical literacy and keywords that lend themselves to cross-curricular activities.

It is extremely important to understand that this resource is simply a guide and, as the user, you do not need to follow lesson plans exactly. When using it, you may find that you will achieve more or less than the suggested content in each unit of work; this is of course dependent on timings allocated for physical education at your school, as well as the need for adaptation and differentiation. You will have to take into account that each pupil has their own individual needs and different ability levels, as well as different experiences with regard to physical education and sport. Therefore, those using it should consider how to differentiate tasks so that all pupils are included and are able to meet the learning objectives and outcomes with some degree of success.

Blank pages have been inserted into this resource following every unit of work. This will allow you to develop your own ideas, note any adaptations made or make necessary comments you feel are required for future personal use. We hope that this resource helps you to deliver effective squash sessions, develop confidence and increase your own and pupils’ enjoyment of squash.
We would like to acknowledge the help and assistance of the following in the production of this resource:

**Steve Amos** – England Squash & Racketball Head of National Network

**Association for Physical Education (afPE) – Sue Wilkinson** – for advice, guidance and support.

**Sarah Clarke** – England Squash & Racketball Level 3 Coach, PE Teacher at Hadleigh High School, Suffolk – for advice on educational matters and IT presentation assistance.

**David Turner** – Development Lead Officer – Children and Schools – sports coach UK – for assistance with the funding of this resource and for advice and guidance.

Many thanks to all; without the input received from those acknowledged, this resource would not have been possible.
Introduction

Squash in secondary schools has traditionally been regarded as a ‘minority sport’, and unless the school has the facilities or staff with an interest in squash or specific squash knowledge, it does not normally feature as a mainstream taught curricular activity. Part of the reason for this has been the dearth of resources available for teachers to utilise when teaching squash in an educational setting. This resource has been produced in an attempt to fill this gap.

The resource deals exclusively with school years 7–11 (Key Stages 3 and 4) and is designed to maximise the ease of performance of the activities and games contained within. Obviously, there is scope to make these activities easier or harder to cater for different ability levels, but still with a strong element of competition to inspire and enthuse. It is also intended that schools utilising this resource will look to compete in ‘school families’ or ‘partnership clusters’, in line with the intentions of the School Games (levels 1–3) with teams from years 7–11 culminating in a county final (level 3) and ideally a nearby club-based coaching programme as a follow-on.

The resource content supports the Key Stage 3 and 4 Physical Education Programme of Study that is delivered in the Secondary Curriculum. There is also a section that deals with the assessment criteria for GCSE squash in relation to player/participant, leader and official.

The England Squash & Racketball Mini Squash ORANGE cards also support this resource and delivery of squash within a secondary school environment. The Mini Squash programme provides the vital curriculum link for teachers and coaches, incorporating essential educational outcomes within the activities and games described in these cards, which are flexible (for differentiation, easier or harder etc), easy to follow and most importantly fun!
Physical Education Programme of Study – Key Stage 3:

During Key Stage 3, pupils become more expert in their skills and techniques, and how to apply them in different activities. They start to understand what makes a performance effective and how to apply those principles to their own and others’ work. They learn to take the initiative and make decisions for themselves about what to do to improve performance. They start to identify the types of activity they prefer to be involved with, and to take a variety of roles, such as leader and official.

**Acquiring and developing skills**

1. Pupils should be taught to:
   a) refine and adapt existing skills
   b) develop them into specific techniques that suit different activities and perform them with consistent control.

**Selecting and applying skills, tactics and compositional ideas**

2. Pupils should be taught to:
   a) use principles to plan and implement strategies, and organisational ideas in individual, pair, group and team activities
   b) modify and develop their plans
   c) apply rules and conventions for different activities.

**Evaluating and improving performance**

3. Pupils should be taught to:
   a) be clear about what they want to achieve in their own work, and what they have actually achieved
   b) take the initiative to analyse their own and others’ work, using this information to improve its quality.

**Knowledge and understanding of fitness and health**

4. Pupils should be taught:
   a) how to prepare and recover from specific activities
   b) how different types of activity affect specific aspects of their fitness
   c) the benefits of regular exercise and good hygiene
   d) how to go about getting involved in activities that are good for their personal and social health and well-being.

Physical Education Programme of Study – Key Stage 4

During Key Stage 4, pupils tackle complex and demanding activities, applying their knowledge of skills, techniques and effective performance. They decide whether to get involved in physical activity that is mainly focused on competing or performing, promoting health and well-being or developing personal fitness. They also decide on roles that suit them best, including performer, coach, leader and official. The view they have of their skillfulness and physical competence gives them the confidence to get involved in exercise and activity out of school and in later life.

**Acquiring and developing skills**

1. Pupils should be taught to:
   a) develop and apply advanced skills and techniques
   b) apply them in increasingly demanding situations.
Selecting and applying skills, tactics and compositional ideas

2 Pupils should be taught to:
   a) use advanced strategic and organisational concepts and principles
   b) apply these concepts and principles in increasingly demanding situations
   c) apply rules and conventions for different activities.

Evaluating and improving performance

3 Pupils should be taught to:
   a) make informed choices about what role they want to take in each activity
   b) judge how good a performance is and decide how to improve it
   c) prioritise and carry out these decisions to improve their own and others’ performances
   d) develop leadership skills.

Knowledge and understanding of fitness and health

4 Pupils should be taught:
   a) how preparation, training and fitness relate to and affect performance
   b) how to design and carry out activity and training programmes that have specific purposes
   c) the importance of exercise and activity to personal, social and mental health and well-being
   d) how to monitor and develop their own training, exercise and activity programmes in and out of school.

The resource has been created and adapted to focus on of the four main areas of study in physical education. These areas are acquiring and developing skills; selecting and applying skills, tactics and compositional ideas; evaluating and improving performance; and knowledge and understanding of fitness and health.

The following page gives a weekly overview of the lesson themes/squash skills/competitions inherent in the schemes of work that follow for Key Stages 3 and 4.

### Learning Objectives (Skills)

**Year 7**

1. **Learn** how to move and interact safely in a hall or squash court environment
2. **Acquire** an awareness of basic racket skills
3. **Develop**:
   - a) forehand – what is it?
   - b) backhand – what is it?
   - c) serve – what is it?
   - d) serve return – what is it?
4. **Introduce** racket head skills and apply them to racket and ball awareness
5. **Analyse** their own and others’ work to help them improve

**Year 8**

1. **Learn** how to move, play shots with a racket, and interact safely in a hall or squash court environment
2. **Acquire** racket skills that enable them to direct and control the ball when using drives and volleys
3. **Develop**:
   - a) cross-court drives using width
   - b) straight drives with good length
   - c) volley from serve return
   - d) volley from a high ball
4. **Refine** racket skills and apply them to movement and ball/opponent awareness
5. **Analyse** their own and others’ work and help them improve.

### Learning Outcomes

**Year 7**

1. a) to refine and adapt existing skills
   b) to develop new skills in relation to basic drives
2. a) to plan what they do
   b) to change their plans to see how this affects their performance
3. to take the initiative to analyse their own and others’ work, using this information to improve its quality
4. how to work together for specific activities (eg pairs and groups)

**Year 8**

1. a) to refine and adapt existing skills
   b) to develop specific techniques in relation to the learning objectives and be aware as to why things may go wrong (eg direction of follow-through)
2. a) to use specific hitting techniques to plan what they do in relation to shot direction and outcome
   b) to apply more complex rules and good behaviour (fair play)
3. to take the initiative to analyse their own and others’ work, using this information to improve its quality
4. how to work together for specific activities and outcomes (eg pairs and scoring for each other accurately).

### Language Focus (Literacy)

**Year 7**

- Forehand, backhand, drives, serve, return, grip, rallies, racket head angle, closed and open racket face, officials, marker, referee, scoring system (point a rally – PARS), first shot

**Year 8**

- Cross-court, straight, length, width, short/long/mid-court areas, height, open racket face, swing path, body position, impact point, target areas, volleys, volley as a serve return – after hitting the side wall, timing, practice routines/patterns of play

### Rules

- Importance of rules
- How to keep score
- Fair play
- Awareness of safety
### Key Stage 3 – Medium-term Plan – Squash Skills – Year 7

<table>
<thead>
<tr>
<th>KEY STAGE: 3</th>
<th>YEAR: 7</th>
<th>FOCUS: To develop basic hitting techniques – FH/BH length, serves and returns and use the correct grip</th>
</tr>
</thead>
</table>

#### Programme of Study

**Pupils should be taught to:**
1. Use activities and games to promote knowledge of basic hitting techniques
2. Use the principles of racket head control when planning what they choose to do
3. Respond to changing situations when all the class are involved – safety and respect for others less able.

**Pupils should be able to:**
1. Learn how to move and interact safely in a hall or squash court environment
2. Acquire an awareness of basic racket skills
3. Develop:
   - a) Forehand – what is it?
   - b) Backhand – what is it?
   - c) Serve – what is it?
   - d) Serve return – what is it?
4. Introduce racket head skills and apply them to racket and ball awareness
5. Analyse their own and others’ work to help them improve.

#### Focus on Language (Literacy)

**Learning Outcomes (Assessment Focus)**

- Forehand, backhand, drives, serve, return, grip, rallies, racket head angle, closed and open racket face, officials, marker, referee, scoring system (point a rally – PARS), first shot

Through isolated skill practices, structured activities and competitive situations, pupils should be taught:

1. To refine and adapt existing skills
2. To develop new skills in relation to basic drives
3. To plan what they do
4. To change their plans to see how this affects their performance
5. To take the initiative to analyse their own and others’ work, using this information to improve its quality
6. How to work together for specific activities (eg pairs and groups).

#### Assessment Criteria

- Acquiring and developing skills
- Selecting and applying skills, tactics and compositional ideas
- Evaluating and improving performance

#### Inclusive Practice

- Open-ended task setting
- Pupils compete against those of similar ability
- Variety of tasks and successes
- Variety of ball sizes for various abilities
- Variety of progressions
- SEN/LSA support

#### Risk Assessments

- Correct footwear and clothing (removal of jewellery)
- Awareness of others when sharing equipment
- Hall/court surface free from obstructions
- Ensure correct warm-up is carried out
- Safety of pupils during game situations (ie spatial awareness and consideration of others)
- Awareness of using parts of the body individually and collectively
- Eye safety wear worn (especially on court)
## Key Stage 3 – Short-term Plan – Squash Skills – Year 7

<table>

<th>LEARNING OBJECTIVES</th>
<th>SUGGESTED PRACTICES</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Introduction to the full game of squash and grip</td>
<td>Pupils should have a knowledge as to what the full game of squash looks like, what the correct grip is and how to use it</td>
<td>Show a video clip (via YouTube) of squash played on the Perspex court – explain how good we are at the game (England). Use a warm-up that reflects squash movements (see resource sheet). Show video clips of movements. <strong>A1</strong> – Explain the grip, and open racket face and why it is important – demonstrate what happens if racket face closes – in pairs, one holds racket with correct grip, other analyses – is it right? <strong>A2</strong> – Simple racket and ball activities, tapping up, bouncing ball down to floor, how many in a row? <strong>Game – Racket Relays 1</strong> (see resource sheet). <strong>Game – Racket Relays 2</strong> (see resource sheet).</td>
</tr>
<tr>
<td>2</td>
<td>Forehand lengths</td>
<td>Develop a basic swing on the forehand side using the correct grip and open racket face, use correct body position and impact point, develop a warm-up using dynamic movements</td>
<td><strong>Warm-up</strong> – Ask group to get into teams of 4–5, compose a warm-up of no more than 10 minutes using dynamic movements, show video clips as required. <strong>A1</strong> – Revise grip – open racket face. <strong>A2</strong> – Demonstrate forehand length, with swing path and left foot forward (explain difference if left handed), show hit with drop ball feed – in pairs, watch partner play forehand and try to help to improve. How do you direct it? (Racket face and follow-through.) <strong>A3</strong> – Introduce target (floor) – hit via drop feed and then try to get ball to bounce on floor target. How many in two minutes? Swap jobs (partner reviews). <strong>A4</strong> – In pairs, one racket each, try to hit alternately (rally) cooperating – how many together in two minutes? <strong>A5</strong> – <strong>If time, group feed back – success? Why or why not?</strong> <strong>Game – Target Rallies</strong> as above <strong>A3</strong> but pupils rally together, point scored every time a target hit. First one to 11 points wins (see resource). <strong>Summary – key points – group feed back using Q&amp;A.</strong></td>
</tr>
<tr>
<td>3</td>
<td>Backhand lengths</td>
<td>Develop a basic swing on the backhand side using the correct grip and open racket face, use correct body position and impact point.</td>
<td><strong>Warm-up</strong> – As last week, group compose and execute dynamic warm-up in teams – try to use different movements this time (video clips). <strong>A1</strong> – Demonstrate backhand length, similar to FH but with right foot forward and shoulder turned – show with drop ball feed – in pairs, watch partner play backhand and try to help improve. (Explain difference if left handed.) <strong>A2</strong> – Use floor target hit via drop ball feed first – how many in two minutes? Partner counts, swap jobs. <strong>A3</strong> – In pairs, one racket each, try to hit alternately (cooperative rally) – how many together in two minutes? <strong>A4</strong> – As for FH, if time, group feed back – success etc? <strong>Game – Target Rallies</strong> – as last week, first one to 11. <strong>Game – (If time) Target Rallies</strong> – can use either FH or BH (see resource sheet).</td>
</tr>
</tbody>
</table>
### Key Stage 3 – Short-term Plan – Squash Skills – Year 7 (Continued)

<table>

<th>WEEK</th>
<th>THEME</th>
<th>LEARNING OBJECTIVES</th>
<th>SUGGESTED PRACTICES</th>
</tr>
</thead>
</table>
| 4    | Serve and return | Pupils should be able to use a simple serve (underarm) to start the game and to develop an awareness of why the return is so important. These are the ‘first shots’ of the game. | **Warm-up** – As per last week but in teams try to incorporate basic squash movements with racket and swing (explain ghosting).  
**A1** – Demonstrate a basic underarm serve with drop ball and then without – explain swing path, body position, impact point, explain how the impact point affects direction. In pairs, practise serve with drop feed and without – which is easiest? Explain how you decide who serves to start the game  
**A2** – Explain return of serve in terms of being ready to receive the serve – what type of return is best? Explain need for quick movement into position and reading the serve from opponent’s hand. In pairs, one serves and one returns, play a rally, who won? And how did serve or return affect outcome?  
**Game** – Play a game scoring up to 11, with defined area, start with serve, changing sides if point won by server.  
**Game** – As above but change partners.  
**Summary** – using Q&A, revise the key points and stress the importance of the first shot (ie a good serve or return and how they critically affect the outcome of the game). |

Serve to Target
Serve Return – explanation
First Shot – explanation
Fitness Challenge 1 and 2
Team Matches
Officials – basic roles
Lets and Strokes

Week 5 – Racket skill festival with stations – class competition
Week 6 – Inter/intra-school competition – as above with stations

Warm-up – Dynamic
Equipment needed: space
- Class in space in the hall in teams of 4/5.
- Teams work together to devise warm-up with one leading, changing activities and using time to limit length (say 30–40 seconds).
- Key movements: forward and backwards; side to side; lunging and recovery; speed of movement important – could explain to watch for these if full match shown on clip.
- Mention importance of T-Zone (positioning on court).
- Explain ghosting (how this mirrors court movement with racket swing).

Ghosting or Shadowing
Equipment needed: none (but could add racket if group capable)
- Ghosting or shadowing is an activity that ‘mirrors’ an actual shot played, ie a practice forehand from a set point – can be any shot, it gives the player a chance to get the movement right before adding a ball!
- Group in one long line facing teacher one behind the other.
- Number group ‘1’ or ‘2’.
- No.1s go sideways from the line and practise a forehand (using correct movement).
- No.2s are simultaneously going to practise a backhand in the opposite direction.
- At this stage, they are imagining that they are hitting the ball with their hands.
- A development would be to use rackets but obviously bear in mind proximity issues!
- Teacher calls out how many shots they are playing, say ‘Five forehands’, and then swap over – each person must return back to the centre of the line in between each shot!
The Grip
Equipment needed: one racket between two

- Racket must be held within thumb and forefinger knuckle of preferred hand.
- Hand should be holding the racket ‘on top’ not on the side like a frying pan.
- There should be a small V-shaped gap between the forefinger and the middle finger.
- Grip should be firm but not too tight to allow flexion.
- Grip checks should be performed on regular basis.

Racket Relays
Equipment needed: spots and throw-down lines, one Play/Compete ball for each team, some activities need one racket per team member

- Players sit in teams of 5/6 depending on numbers, could be less if class size smaller.
- R1 – one at a time, players walk with ball on racket up to defined line then walk back – give ball to partner’s racket.
- R2 – as above (run) – NB: activity not finished until class sat back down.
- R3 – Players tap the ball up (minimum four times – and back!) to line then give to partner etc.
- R4 – bouncing ball down – as above one at a time etc.
- R5 – players run with ball on racket up to line, tap ball up, and let it bounce once, then retrieve it – do this five times then run back and pass to partner.
- R6 – players run with ball up to wall/table upturned or bench hit against it after one bounce – do this five times and then run back and pass to partner.

Target Rallies 1
Equipment needed: floor spots, one racket, rebound surface (mini wall, sports hall wall) throw-down lines to define area

- In pairs, one with racket, one scores.
- Player A bounces ball down on floor, hits to wall/rebound surface and then tries to get the ball to bounce on the target (floor spot). Player B counts the number of targets achieved in 90 seconds (time can be varied as appropriate).
- Playing area identified by throw-down lines.
- Can be done forehand only or backhand only – one player at a time.
Target Rallies 2
Equipment needed: As above
- Target identified as above, but one more added (ie one for forehand target and one for backhand target – use two floor spots).
- Players hit alternate shots, trying to score a point by hitting target.
- Use time limit or a game (first one to 11).
- Each player keeps the opposite’s score to ensure correct result.

Serve
Key points to look for:
- Decide who serves by spin of racket.
- Serve is forehand drive after the ball has been bounced by server (ie bounce first). Can be without bounce if on squash court (depends which most effective).
- Timing (of contact) is the key issue – separate actions as follows:
  - Racket back ready (behind the body and ‘up’).
  - Bounce the ball, wait a fraction of a second then swing racket towards the ball hitting just after the top of the bounce – 1: racket back; 2: ball bounce (to waist height); 3: then hit (ie ‘1, 2, 3’).
- Timing issues can be solved by patient application of procedure (ie ‘1, 2, 3’) – ensure class bounce ball gently and not too forcefully downwards!
- Swing racket (aim) in intended direction, look for where positioned initially.
- Where does serve go (above the line on mini wall)? In squash, must go ‘to’ receiver not back to yourself!

Serve to Target
Equipment needed: one racket, Play or Compete (squash) ball, floor spot (if using sports hall, will need tape to mark service line on the wall)
- In pairs, one drops the ball on the floor and serves to a wall (rebound surface/mini wall).
- If serve is good (above the line on the wall?) = one point; hits the target = two points etc.
- One player has 10 serves – how many points? Swap jobs.

Serve Return
Key points to look for:
- Receiver in ready position? Are they watching ball or wall?
  Because this will help them determine direction and pace of shot plus where and how they are likely to be able to return it.
- Are they in centre of court (T-Zone) or only standing on one side?
  If they are in the middle, this is the best place to stand to watch the ball and determine where it may go.
• Racket out in front (prepared or by feet?).

To get ready to play either Forehand or backhand.

• Watch server’s action – underarm or overarm? Where is ball likely to go?

Gives you longer to read the ball's likely direction.

• Where does return go? Have you moved server away from the middle or hit past server to make it difficult to return?

Best place is past server to move them away from the middle and put them in charge of the rally.

First Shot – Explanation

• The ‘first shot’ of every rally, if effective, will more often than not set the tone, and statistically the eventual outcome in more than 60% of cases.

• A good serve or return is a key element of the rally and its importance cannot be overstressed.

• Varieties of serve and return are also as important in order to prevent the opponent from starting the rally on ‘their terms’.

• A good deal of rallies, especially at beginner/intermediate level, are won or lost within 3–4 shots.

• Players who are aware of this will do better than their opponents in almost every case.

Fitness Challenge 1 and 2

Equipment needed: stopwatch, throw-down lines or spots

• A1 – Jumping up as high as possible – how many in 45 seconds?

• A2 – Line on the floor – how many jumps across (heels together) side to side in 45 seconds?

• A3 – Press-ups? Can be with knees on floor instead of full movement – how many in 45 seconds?

• A4 – Shuttle runs (forwards) – how many in 45 seconds?

• B1 – Shuttle runs forwards and backwards – how many in 45 seconds?

• B2 – Side to side cone touch with right and left hand (to cones approx 1.5 metres apart) – how many in 45 seconds?

• B3 – Two spots out in front – one on left, one on right, person stands approximately two metres away at spot in between the two in front. How many lunges (right foot and left foot) to spots (45 seconds)?

• B4 – in teams, tag sprinting to floor target (one at a time sprint there and back, then ‘tag’ partner).

NB: Use as many activities as relevant For time period allocated.

Fitness Challenge 1 – activities A1 to A4.
Fitness Relay Challenge 2 – activities B1 to B4.
**Team Matches**

Equipment needed: one racket per player, one ball between two, throw-down lines to identify area, tape to mark service line on rebound surface (sports hall wall, mini wall, court etc)

- Teams (could be 2–5 players in each team).
- Players are ranked in approximate ability order.
- Each team plays as follows 1v1, 2v2, 3v3 etc.
- Players play against each other one match to 11.
- Playing area defined by throw-down lines (ball must bounce inside this area).
- Service line defined on wall at appropriate height (by tape).
- One serve only, winner of rally serves next point (alternate sides).
- Team with most points accumulated wins.

**Squash Officials – Basic Roles**

- Two officials – marker and referee.
- Marker calls and records the score.
- Referee makes decisions and ensures marker calling and recording score properly.
- Officials need to stand in a safe space away from the playing area but near enough to see everything!
- Method of writing score down up to marker but they need to know 3 Ss: **1: Score?** – What is the correct score (call out server’s score first)? **2: Side?** – Which side should the server be serving from? **3: Server?** – Who’s serving?
- Best to write the score down before it’s called out – players have to wait until marker calls before they serve or start to play.

**Lets – what are they, and why are they necessary?**

- Players are entitled to call for a let if they are impeded by their opponent in the process of trying to play the shot.
- A let means you are entitled to replay the point – the score stays the same and the original server still serves.
- Players should ask for a let from the match referee (the referee then decides whether or not they are entitled) BEFORE they try to play the shot – this is simply for safety reasons (ie to prevent a potential injury or playing shot from a disadvantaged position).
- Encourage players to call for a let as soon as you can, they will then become more familiar with why it is necessary to do so.
**Week 5 – Racket Skill Festival Stations – single class ‘team’ competition**

**School Games – Level 1**

- Recommended playing area – school hall/sports hall/squash courts.
- Area is set out with each activity in a space – if a class then 5/6 activities will be enough.

**Stations:**

1. Fitness Challenge 1
2. Racket Relays 1
3. Racket Relays 2
4. Target Rallies – Cooperative
5. Target Rallies – Competitive
6. Serving to Target
7. Team Matches
8. Fitness Relay Challenge

Activities to be organised as explained above – winning team one with most points accumulated.
**Week 6 Multi-skill Festival – intra/inter-school competition**

Using stations as identified above, classes in year group select teams of three boys and three girls to compete against other classes in their year groups.

Could also be run as school vs school – using teams of two or three boys and two or three girls per team. Winning team with most points.

Could also be run on basis explained below:

**Mini Squash/Squash League – inter-school competition**

**School Games – Level 2**

- Identify top two boys and top two girls from week 5 ‘class’ competition.
- School team of four plays against other schools in ‘family’ in ranked order.
- Each school’s no.1 boy plays one game up to 11, against all the other no.1 boys – same for boy no.2, girl no.1 and girl no.2 – all the points scored by each team member are then added up and the winning school is the one with the most points accumulated at the end.
- ‘The Family/Cluster Mini Squash/Squash League’ can be as many weeks as appropriate, would suggest two rounds and then a ‘cluster/family’ final.
- The top two schools from each cluster/family final then play in a Grand SSP Play-off to find the District Champion Mini Squash/Squash team!
- Could potentially lead on to a county (school games Level 3) Mini Squash/squash event (organised by school games organisers in liaison with participating SSPs).
- At regional/district finals, teams are seeded as follows – three rounds:

**Round One:**

No.1 seeds play the no.8s – match A.
No.2 seeds play the no.7s – match B.
No.3 seeds play the no.6s – match C.
No.4 seeds play the no.5s – match D.

**Round Two:**

Winner of match A plays the winner of match D (semi-final) – match 1.
Loser of match A plays the loser of match D (play-off) – match 2.
Winner of match B plays the winner of match C (semi-final) – match 3.
Loser of match B plays the loser of match C (play-off) – match 4.

**Final Play-offs:**

Winner of match 1 plays the winner of match 3 (final).
Loser of match 1 plays the loser of match 3 (3/4 play-off).
Winner of match 2 plays the winner of match 4 (5/6 play-off).
Loser of match 2 plays the loser of match 4 (7/8 play-off).
Mini Squash Box Leagues for Four, Five and Six Players

**Key Stage 3 – Medium-term Plan – Squash Skills – Year 8**

<table>
<thead>
<tr>
<th>KEY STAGE: 3</th>
<th>YEAR: 8</th>
<th>FOCUS: Develop further awareness of the tactical application of length in terms of pace and direction and good basic volley techniques on both BH and FH sides to return – serve and create pressure.</th>
</tr>
</thead>
</table>

**PROGRAMME OF STUDY**

Pupils should be taught to:
1. use activities and games to promote awareness of the tactical application of drives and volleys in a game situation
2. use the principles of basic hitting techniques – grip/swing path, impact point, body position and racket face angle when deciding what shot they select to use in a moving game situation
3. respond to changing situations when all the class are involved – safety and respect for others less able, especially in a more confined space.

**LEARNING OBJECTIVES**

Pupils should be able to:
1. **learn** how to move, play shots with a racket, and interact safely in a hall or squash court environment
2. **acquire** racket skills that enable them to direct and control the ball when using drives and volleys
3. **develop**:
   a) cross-court drives using width
   b) straight drives with good length
   c) volley from serve return
   d) volley from a high ball
4. **refine** racket skills and apply them to movement and ball/opponent awareness
5. **analyse** their own and others’ work and help them improve.

**FOCUS ON LANGUAGE (Literacy)**

Cross-court, straight, length, width, short/long/mid-court areas, height, open racket face, swing path, body position, impact point, target areas, volleys, volley as serve return – after hitting the side wall, timing, practice routines/patterns of play

**LEARNING OUTCOMES (Assessment Focus)**

Through isolated skill practices, structured activities and competitive situations, pupils should be taught:
1. a) to refine and adapt existing skills
   b) to develop specific techniques in relation to the learning objectives and be aware as to why things may go wrong (eg direction of follow-through)
2. a) to use specific hitting techniques to plan what they do in relation to shot direction and outcome
   b) to apply more complex rules and good behaviour (fair play)
3. to take the initiative to analyse their own and others’ work, using this information to improve its quality
4. how to work together for specific activities and outcomes (eg pairs and scoring for each other accurately).

**ASSESSMENT CRITERIA**

- Acquiring and developing skills
- Selecting and applying skills, tactics and compositional ideas
- Evaluating and improving performance

**INCLUSIVE PRACTICE**

- Open-ended task setting
- Pupils compete against those of similar ability
- Variety of tasks and successes
- Variety of ball sizes for various abilities
- Variety of progressions
- SEN/LSA support

**RISK ASSESSMENTS**

- Correct footwear and clothing (removal of jewellery)
- Hall/court surface free from obstructions
- Equipment set out correctly
- Ensure correct warm-up is carried out
- Safety of pupils during game situations (ie spatial awareness and consideration of others)
- Awareness of using parts of the body individually and collectively
- Use of eye safety wear (goggles)
## Key Stage 3 – Short-term Plan – Squash Skills – Year 8

<table>
<thead>
<tr>
<th>WEEK</th>
<th>THEME</th>
<th>LEARNING OBJECTIVES</th>
<th>SUGGESTED PRACTICES</th>
</tr>
</thead>
</table>
| 1    | Revisit FH and BH lengths | Pupils should be able to analyse why their drives land where they do and what to try to correct if the shot production is ineffective. | Demonstrate ghosting as a warm-up method. Ask class to split into groups of 4/5 and construct and execute a warm-up using ghosting with and without a racket.  
**A1** – Revise length shots in terms of swing path, body position and impact point and how this affects the direction and end result of the shot. Use question and answer (eg if cross-court, why?).  
**A2** – In pairs, Player A must play straight and Player B must play cross-court (XCT) in cooperative rally.  
**A3** – In groups – two players play one game to seven points; others watch and comment after the game on the effectiveness of their lengths – are there weaknesses?  
**Game – Target Rallies** – using spots for targets for XCTs and straight lengths – one bonus point for target and one for winning rally – up to seven points.  
**Game – Matches up to seven.**  
**Summary** – Ask what are key points that affect drives? |
| 2    | Volleys (FH)           | Introduce FH volley – as serve return and mid-court to stop ball going past you – advantages? | **Warm-up** – As for last week, split class into groups and use combinations of dynamic warm-up(s) and ghosting with and without a racket. Use different heights of hit (eg low, mid-height, volley).  
**A1** – Introduce FH volley – demonstrate, with class seated, on to mini wall/court wall or sports hall wall (see resource sheet for technical information) – explain need to keep racket face ‘open’ – demonstrate FH only. Explain different heights of volley – high (overhead) mid-court, low lunge to volley.  
**A2** – Group work in pairs, one racket, one ball, simple hand feed for controlled FH volley back to partner – direction? If not correct, try to analyse why – swap jobs.  
**A3** – As above, feed at different heights – swap jobs, help each other to improve control.  
**A4** – Explain volley as serve return and advantages of gaining the initiative from the first shot. Explain also need to move to the T (middle) to dominate the rally.  
**Games** – Serve return (if possible must be volleyed).  
**Games** – Use volley whenever possible to speed. |
| 3    | Volleys (FH)           | Introduce BH volley.                                                                  | **Warm-up** – As for last week, split class into groups and use combinations of dynamic warm-up(s) and ghosting with and without a racket. Use different heights of hit (eg low, mid-height, volley).  
**A1** – Introduce BH volley – demonstrate, with class seated, on to mini wall/court wall or sports hall wall (see resource sheet for technical information) – explain need to keep racket face ‘open’ – demonstrate shoulder turn for BH. |
### Key Stage 3 – Short-term Plan – Squash Skills – Year 8 (Continued)

<table>
<thead>
<tr>
<th>WEEK</th>
<th>THEME</th>
<th>LEARNING OBJECTIVES</th>
<th>SUGGESTED PRACTICES</th>
</tr>
</thead>
</table>
| 4    | Practice routines (1) | Pupils to develop the skills necessary to try to control a ball and direct it away from a partner. Then to incorporate these new skills into a practice routine/pattern to help to improve performance. These are the basic building blocks of the game. | **Warm-up** – As for last three weeks, warm-up to be devised by group but when ghosting to use a combination of shots ‘in sequence’ (eg length FH, then length BH, drop BH, then cross-court drive). One calls out ‘shots’, other performs action in response.  
**A1** – Explain what a practice routine is (ie a predictable pattern or sequence of shots) (see resource sheet for explanation).  
**A2** – Demonstrate simple routine (1) – one player plays the ball straight, the other plays it cross-court – then swap roles – ask who is moving the most and why.  
**A3** – Simple routine (2) – one player plays only straight, the other can play straight or cross-court – again, ask who is forced to move the most and why.  
**A4** – Simple routine (3) – start with a serve, one player tries to play ‘short’ to the front, the other tries to play ‘long’ (to the back).  
**Game** – With tactic to move opponent round the court as much as possible – refer back to last week and benefits of volleys to assist with this.  
**A5** – **Summary** – Use Q&A to facilitate learning why practice routines are effective in skill development. |
| 5    | Intra-school team competition | Split group into teams of five (could be mixed or same gender, depends on group composition). | Using team match format, players play other teams in ranked order (see resource sheet for full explanation) – team with most points wins. Use score sheets to referee/mark matches (sample in resource). |
| 6    | Inter-school competition | Use same format as for intra-school team matches but can extend matches to more than one game (best of three or even five sets). | Using team match format, players play other teams in ranked order as above – ‘school’ team with most points wins. Use score sheets to referee/mark matches (sample in resource). |
Volleys

Key points to look for:

- Volley is a shot that is hit without a bounce.
- Timing (of contact) is the key issue.
- Racket back ready at waist height and top of racket head level with eyes.
- Action is more of a short swing either forehand or backhand.
- Watch for ‘open’ racket face.
- Swing racket (aim) in intended direction, look for where positioned initially.
- Side on to target.
- Used tactically to stop the ball going to the back of the court – effectively speeding the game up.
- Also used as the preferred choice of serve return – if hit past the server, the returner can move to the T-Zone first to be in the best position to dominate the rally.

Forehand Volley (FH):

- FH volley is similar to tennis serve (often hit overhead) but without the long preparation backswing.
- If right handed, should be hit with the left foot forward (opposite if left handed).
- Other key points as above.
Backhand Volley (BH):

- With a BH volley, a good shoulder turn away from the ball prior to impact is important to hit the shot with control and power.
- If right handed, should be hit with the right foot forward (opposite if left handed).
- Other key points as above.

Practice Routines

- Practice routines are where players (can be 2–4 working together) play an agreed sequence of shots to gain consistency and accuracy – the emphasis initially has to be on cooperation in order to make it work (eg for a simple two-person routine, one player plays every shot straight to the back of the court, the other plays cross-court to the back of the court).
- Routines have varying degrees of complexity, utilising a variety of shots and can also be competitive – in the early days, however, the simpler the better, until they become more accomplished and the level of perception and understanding has increased to a satisfactory level where there is a good deal of mutual benefit being gained from the routine (if more advanced).

Team Matches – format

- The number of players in a squash team is commonly five – most county league matches have this format – players are ranked according to standard (in order 1–5), the top player being the no.1.
- Each match is played 1v1, 2v2, 3v3, 4v4, 5v5 – usually they are best of five sets to 11 points – players win either 3–0, 3–1 or 3–2.
- Playing the first one to 11 points (scoring every rally) – if the score reaches 10-all, the winner must gain a two clear point lead to win, ie 12–10 or 15–13 etc.
- The winning team is the one that wins the most matches, ie 5–0, 4–1 or 3–2, with points gained for every game won – the winning team usually gains additional points (see format below).

Team Match – sample scorecard:

Lexden (home) vs Tendring Tech College – 21 April 2011

<table>
<thead>

Pressure, momentum, variation of pace, application of tactics, mental control, concentration, focus, anticipation, deception, perception, shot selection, disguise, holding the shot

See Criteria (pages 55–60)

- Fair play and accepting decisions
- Officials of the game/roles
- Pay attention when not playing
- Correct safety wear (goggles)
- Lets and strokes
**Key Stages 3 – Medium-term Plan – Specific Squash Skills – Year 9**

<table>
<thead>
<tr>
<th>KEY STAGE: 3</th>
<th>YEAR: 9</th>
<th>FOCUS: Develop an appreciation and understanding of the use of angles and wall shots, their tactical application in games and practice routines, and to outwit opponents.</th>
</tr>
</thead>
</table>

**Programme of Study**

Pupils should be taught to:
1. Use activities and games to promote awareness of the tactical application of angles and wall shots in a game situation.
2. Use the principles of basic hitting techniques, grip/swing path, impact point, body position, and racket face angle when deciding which angle/wall shot they select to use in a moving game and practice routines.
3. Respond to changing situations when all the class are involved – safety and respect for others less able, especially in a more confined space.

**Learning Objectives**

Pupils should be able to:
1. Learn how to move, and play angles and wall shots safely in a squash court environment.
2. Acquire racket skills that enable them to direct and control the ball when using angles and wall shots.
3. Develop:
   a) Angle shots hitting the side wall first (boasts)
   b) Hitting shots after a side wall contact
   c) Hit a volley from serve return after a side wall contact
4. Refine racket skills to apply them to correct shot production and ball/opponent awareness.
5. Analyse their own and others’ work and help them improve.

**Focus on Language (Literacy)**

Boast, short angle, reverse angle, back-wall boasts, loss of ball speed (deceleration), change of angle, recovery and attack, tactical strategies, more advanced practice routines/patterns of play, 3/4 or three-part court.

**Learning Outcomes (Assessment Focus)**

Through isolated skill practices, structured activities and competitive situations, pupils should be taught:
1. To refine and adapt existing skills.
2. To develop specific techniques in relation to the learning objectives and be aware as to why things may go wrong (eg angle of contact on the side wall).
3. To use specific hitting techniques to plan what they do in relation to shot direction and outcome.
4. To apply simple tactics and good behaviour (fair play).
5. To take the initiative to analyse their own and others’ work, using this information to improve its quality.
6. How to work together for specific activities and outcomes (eg pairs and scoring for each other accurately).

**Assessment Criteria**

- Acquiring and developing skills
- Selecting and applying skills, tactics and compositional ideas
- Evaluating and improving performance

**Inclusive Practice**

- Open-ended task setting
- Pupils compete against those of similar ability
- Variety of tasks and successes
- Variety of ball sizes for various abilities
- Variety of progressions
- SEN/LSA support

**Risk Assessments**

- Correct footwear and clothing (removal of jewellery)
- Awareness of others when sharing and using equipment, especially rackets
- Court surface free from obstructions
- Equipment set out correctly
- Ensure correct warm-up is carried out
- Safety of pupils during game situations (ie spatial awareness and consideration of others)
- Awareness of using parts of the body individually and collectively
- Use correct eye safety wear (goggles)

| 1    | Angles and walls       | the variety of different types of angle and wall shots and begin to use them in games and practice routines | **Warm-up** – As for Year 8 warm-ups, pupils should be familiar with dynamic warm-ups and ghosting – split group into equal (group) numbers and nominate a warm-up leader who calls out exercises for dynamic section – group then decide together about more squash-specific movements (ghosting) and combinations/timings.

  - **A1** – Explain that squash involves using the walls/angles – demonstrate boast and reverse angle (see resource sheet for shot explanations).
  - **A2** – Explain how the ball reacts after hitting the side wall (e.g., loses power/speed, drops, changes angle) and also how this affects technique in hitting and receiving.
  - **A3** – In pairs, one hand feeds on to the side wall/any wall – the other hits shot.
  - **A4** – Find a corner (of the court) and hit alternate shots via the walls – what happens?
  - **A5** – As above, mix shots with straight shots and wall shots.

**Game** – *Introduce ¾ or three-part court* (see resource sheet) – groups play and keep their scores. Hit any wall shot to see what happens during rally.

**Summary** – Use Q&A to discuss what the effects are of angle and wall shots.

| 2    | Forehand boast         | the technical and tactical aspects of the forehand boast – and to use it during a rally to achieve a specific outcome (e.g., attack or defence). | **Warm-up** – As for last week – warm-up routines to be no longer than 10 minutes max.

  - **A1** – Demonstrate a FH boast from the back of the court – explain the correct hitting technique and angle etc (see resource sheet). Emphasise why you would play such a shot and what you would hope to achieve tactically.
  - **A2** – In groups (four players per court), one stands at the back of the court (level with the service box), the others stand in the rear BH corner. The feeder hand feeds the ball on to the side wall for the first one to hit a boast (needs to be demonstrated to all class first – using all four players) – be aware of safety concerns.
  - **A3** – In groups, same activity – change feeder and throw ball further back into the corner (must be demonstrated first) – ball should come back to FH corner if shot played correctly.

**Game** – On FH ¾ side, play practice rallies using FH boast whenever it’s feasible to see what happens.

**Game** – *Play same game as above but gain extra point if rally won using FH boast.*

**Summary** – Use Q&A to remind of key points and tactical effects of FH boasts.
## Key Stage 3 – Short-term Plan – Specific Squash Skills – Year 9 (Continued)

| 3    | Backhand boast            | pupils should be able to understand: the technical and tactical aspects of the backhand boast – and to use it during a rally to achieve a specific outcome (eg attack or defence) | Warm-up – As for last week – warm-up routines to be no longer than 10 minutes max.  
A1 – Demonstrate a BH boast from the back of the court – explain the correct hitting technique and angle etc (see resource sheet). As for FH, emphasise why you would play such a shot and what you would hope to achieve tactically.  
A2 – In groups (four players per court), one stands at the back of the court (level with the service box), the others stand in the rear FH corner. The feeder hand feeds the ball on to the side wall for the first one to hit a BH boast (needs to be demonstrated to all class first – using all four players) – be aware of safety concerns.  
A3 – In groups, same activity – change feeder and throw ball further back into the corner (must be demonstrated first) – ball should come back to BH corner if shot played correctly.  
Game – On BH ¾ side, play practice rallies using BH boast whenever it’s feasible to see what happens.  
Game – Play same game as above but gain extra point if rally won using BH boast.  
Summary – Use Q&A to remind of key points and tactical effects of BH boasts. |
| 4    | Movement and positional skills | the nature of the necessary movement and positional skills in squash; also to be able to develop and refine the correct positional and movement skills in a game and practice routines | Warm-up – For the last few sessions, the emphasis has been on using warm-ups that are like a squash match. In groups, discuss (five minutes) how to construct a vigorous warm-up that emulates the physical demands of a match then execute with one ‘leader’ in 10 minutes.  
A1 – Explain that good positional and movement skills require a degree of personal and spatial awareness (see resource sheet for explanation) – how you move can assist greatly in controlling a game and the shots you are able to select/choose from upon arrival at the ball.  
A2 – Using ghosting, break the movement down so that the largest stride is the one before you hit the ball – place great emphasis on balance, agility/speed and controlled movement. In groups, one does the movement (eg a ghost to the front to hit a drop shot) – the others analyse movement – swap jobs and analysers!  
A3 – As above, but the player ghosting also hits a shot – others analyse the quality of the shot by using a target – how can improving movement and positional skills improve the accuracy of the shot? As above, swap analysers and hitter (change shot), add a ghost to another location before the shot (see resource sheet for explanation).  
Game – ¾s but trying to use good movement and positional skills to dominate the rallies.  
Game – In groups of four, two players analyse the game – how effective were the movement skills? |

NB: During games, it is important that, in preparation for GCSE, teams are organised with emphasis on developing players through reciprocal (and coach) analysis, and that participants take turns in leader and officials roles.
Contents:
Angles and Walls – hitting and receiving
Boast – FH/BH – explanation
Back-wall Boast – explanation
Reverse Angle – explanation
Short Angle/Boast Hand – explanation
¾ or Three-part Court – explanation
Good Movement and Positional Skills – personal and spatial awareness (explanation)
Ghosting and Hitting – explanation

Angles and Walls:
- The use of the walls and angles, to a certain extent, is exclusive to the game of squash.
- The aim is to teach the use of walls and angles to either attack or recover.
- The ball, after hitting the wall, loses energy, changes direction and drops.
- This is most felt when returning a high serve that hits the wall first.
- Used effectively, hitting angles and walls can twist and turn an opponent and add another strategic dimension to the game.

Boast – FH/BH:
- A boast is a shot that hits the side wall, the front wall and the opposite side wall (low).
- It is best to describe the shot as a simple drive that hits the side wall first.
- The ideal hitting angle for a boast from the back of the court is 45 degrees to the side wall.
- Another way to describe it would be to imagine that the wall you are hitting against is transparent and you aim for the opposite corner in the court next door – to give a visual clue to the ideal direction of the shot.
- It can be played either BH or FH and also on the volley.
**Back-wall Boast:**

- A back-wall boast is a shot (normally a drive) that is hit on to the back wall of the court first and ends up hitting the front wall (without bouncing first).
- It is primarily a defensive shot, and usually only played as a last resort as it ends up landing in the front of the court with plenty of time for the opponent to play some sort of finishing shot.
- Simply put, it looks spectacular but is simple to attack (by the opponent).

**Reverse Angle:**

- A reverse angle shot is normally a drive played on to the side wall first then on to the front wall.
- Usually played in the front of the court, hit FH on to the left hand side wall and on to the front wall.
- It is an effective winning shot if played with the opponent behind you and hit low and hard, ending up in the opposite corner from the original direction.
- It is an ineffective shot if hit too high up on to the side wall as it would give an opponent a good deal of time to choose their next shot (normally a low drop or hard hit low drive).

**Short Angle/Boast:**

- A short angle or short boast is an angled shot played in either of the front two corners of the court as a winning shot (an alternative to a standard straight drop or drive).
- The shot is played low on to the side wall first and then on to the front wall as close as possible to the corner.
- Played either FH or BH – the idea is to delay the shot for as long as possible then play it quickly to give the opponent the impression that a drop or drive is the likely shot – then hit the short angle to twist the opponent and win the rally.

**¾ or Three-part Court – Explanation:**

- Essentially, ¾ court, or three-part court as it sometimes known, is used as a way of conducting group activities safely on one court.
- Groups of up to six can be on one court – with one corner (usually one of the two back ones) as a designated ‘safe’ area.
- The idea is for two players at a time to play a rally or practice routine in the three remaining quarters – ie as per diagram below.
- The (four) players remain in the shaded area and the ball is not allowed to go into it or it will be classed as out/unplayable.
- Activities such as ‘winner (of the rally) stays on’ or ‘king of the court’ – whereby, after a designated time, players with either the highest or lowest scores move up or down to the court next door to mix the groups up.

**¾ COURT PRACTICES**
Good Movement and Positional Skills:

• Good positional and movement skills are essential if the players are to improve and progress to GCSE standard.

• An overt awareness of the development of these skills can be broken down into the fundamentals of movement (agility, balance and coordination).

• The movements required at this level (Year 9 and above) are more complex and integrated – good shot production and execution of selected tactical strategies will only be possible if players are taught the importance of body control and awareness.

• The variance of the T-Zone is an example of how the awareness of good positional and movement skills can be demonstrated. Players need to be able to ‘read the game’ and anticipate which shots may be played by their opponents and move early to cover their shot options, i.e. if the ball is tight to the side wall – how many options is their opponent likely to have?

• Ghosting alternated by playing a shot are good ways of improving efficiency of movement and positional skills.

Personal Awareness:

• Linking in to the above – the players need to be encouraged to develop a kinaesthetic awareness of their personal movement skills/abilities – one of the best ways to do this would be to video the players and then illustrate how their bodies are reacting to either the ball or their opponent or other stimuli (equipment, clothing, court surface, nerves etc).

• At this stage, overall fitness becomes much more important due to growth, age and body somatotype – specific training programmes could be devised to address salient issues.

• A good knowledge of the basics of fitness would be very useful to understand why and how the body reacts as it does.

Spatial Awareness:

• The awareness and proximity of opponents in a small confined space such as a squash court is another factor that affects shot selection and the execution of tactical strategies.

• Players should be encouraged to become more aware of the ‘spaces’ that are created on a squash court – often described as ‘physical chess’, squash requires a high degree of anticipation of an opponent’s likely future moves and potential shot choices.

• It is a danger if the players are coached too much and lose the ability to decide for themselves which shot is most appropriate in exact relation to where their opponent is standing.

• Awareness of the opponent’s state of mind and fitness level also affects their potential shot choices and ability to move around the court.

• Knowing where and how to move around the court is essential if the player is to develop to their full potential, and their ability to begin to read the game and predict their opponent’s next likely move arises from gaining experience at higher levels of the game.

Ghosting and Hitting:

• The essentials of ghosting were explained in the resource sheet for Year 7.

• Simple ghosting and hitting requires one feeder and one hitter. The idea is for the hitter to complete one ghost movement followed by playing a designated shot, i.e. a backhand ghost played in the backhand corner followed by a movement to the T – the feeder then gives a simple feed for the hitter to hit a forehand drive (could be varied by a tougher feed and adding a target for the drive).
Key Stage 4 – Medium-term Plan – Squash Skills – Year 10

<table>
<thead>
<tr>
<th>KEY STAGE: 4</th>
<th>YEAR: 10</th>
<th>FOCUS: Develop an appreciation and understanding of the use of lob and drop shots, their tactical application in games and practice routines, and to outwit opponents. Also begin to appreciate the roles of leaders and officials in the game.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>PROGRAMME OF STUDY</strong></td>
<td><strong>LEARNING OBJECTIVES</strong></td>
<td></td>
</tr>
<tr>
<td>Pupils should be taught to: 1 use activities and games to promote awareness of the tactical application of lob and drop shots in a game situation plus the effects of a good lob serve 2 use the principles of basic hitting techniques – grip/swing path, impact point, body position and racket face angle when deciding how to produce an effective lob and drop shot and when to use them in a moving game and practice routine 3 respond to changing situations when a small group is involved (ie a 2 or 3) – safety and respect for others less able, especially in a more confined space.</td>
<td>Pupils should be able to: 1 learn how to move, and play lob and drop shots safely in a squash court environment 2 acquire racket skills that enable them to direct and control the ball when using lob and drop shots 3 develop: a) high lob serves and BH and FH lob from the front of the court b) hitting BH and FH drop shots in the front court c) hitting drop shots using a volley, ie a drop volley BH and FH straight and cross-court 4 refine existing racket skills to apply them to correct shot production and ball/opponent awareness 5 analyse their own and others’ shot production to help them improve.</td>
<td></td>
</tr>
<tr>
<td><strong>FOCUS ON LANGUAGE (Literacy)</strong></td>
<td><strong>LEARNING OUTCOMES (Assessment Focus)</strong></td>
<td></td>
</tr>
<tr>
<td>Height, depth, ball speed (deceleration), change of pace, recovery and attack, tactical strategies, lob drop, drop volley, more advanced practice routines/patterns of play, alley games, ¾ or three-part court</td>
<td>Through isolated skill practices, structured activities and competitive situations, pupils should be taught: 1 to refine and adapt existing skills 2 to develop specific techniques in relation to the learning objectives and be aware as to why things may go wrong (eg angle of racket face when playing lob) 3 to use specific hitting techniques to plan what they do in relation to shot direction and outcome 4 to apply simple tactics and good behaviour (fair play) 5 to take the initiative to analyse their own and others’ work, using this information to improve its quality 6 how to work together for specific activities and outcomes (eg alley games and ¾s).</td>
<td></td>
</tr>
<tr>
<td><strong>ASSESSMENT CRITERIA</strong></td>
<td><strong>INCLUSIVE PRACTICE</strong></td>
<td></td>
</tr>
<tr>
<td>• Acquiring and developing skills • Selecting and applying skills, tactics and compositional ideas • Evaluating and improving performance</td>
<td>• Open-ended task setting • Pupils compete against those of similar ability • Variety of tasks and successes • Variety of ball sizes for various abilities • Variety of progressions and activities • SEN/LSA support</td>
<td></td>
</tr>
<tr>
<td><strong>RISK ASSESSMENTS</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Correct footwear and clothing (removal of jewellery) • Awareness of others when sharing equipment • Court surface free from obstructions • Equipment set out correctly • Awareness of lets and strokes • Safety of pupils during game situations, ie spatial awareness and consideration of others • Awareness of using rackets and balls in a confined area (alley games) • Use of eye safety wear (goggles)</td>
<td></td>
<td></td>

</table>
| 3    | Practice routines (2) | pupils should be able to: use a variety of practice routines that allow them the opportunity to utilise a lob/lob serve, and drop shot/drop volley in isolation and in sequence. | **Warm-up** – In groups – appoint a leader and ask the group to use ghosting activities to replicate the likely movements needed in their forthcoming practice routines. These may need to be pre-decided.  
**A1** – Using two competent players, give them a routine to demonstrate such as lob serve, straight volley return, boast, cross-court lob – demonstrate with rest of class watching – explain need to cooperate initially, then make the routine more competitive.  
**A2** – Using a ¾ court format – players practise the above routine in twos, with the other group members in the designated safe corner. This will take time for all to ‘get the hang of it’ – but persist with patience and constant re-demonstrations if necessary.  
**A3** – Change sides but use same routine (maybe use ‘winner stays on’).  
**A4** – Introduce the next routine (same as above) except after the boast, a drop shot should be played; from the drop, a lob will be the next shot – as above, this will take time.  
**A5** – Using the same routine again, but this time from the boast a drop OR lob can be played, to give the opportunity to develop some simple disguise techniques, ie ‘holding’ the shot as long as possible (see resource for explanation of holding).  
**Game** – In groups of four, two play (with no restrictions) and two act as observers, win an extra point if the winning shot is a lob or drop shot (could also be a lob serve or drop volley if players of sufficiently competent level).  
**Summary** – Use Q&A – Were routines effective? If not, why not? |
| 4    | Practice routines (3) | As for last week, recap practice routines that allowed them the opportunity to utilise a lob/lob serve, and drop shot/drop volley in isolation and in sequence. | **Warm-up** – In groups – as for last week, appoint a leader and ask the group to use ghosting activities to replicate the likely movements needed in their forthcoming practice routines. These can be pre-decided based upon the success/non-success of last week’s routines.  
**A1** – Using two competent players, ask them to demonstrate a practice routine as follows – lob serve, straight volley return, both players then play the ball above the service line until one player attempts a straight drop volley, the next shot can be a ‘counter’ drop shot or a lob – demonstrate with rest of class watching; as for last week, players must cooperate initially then make the routine more competitive.  
**A2** – Using alley games – players practise the above routine in twos, with the other group members off court observing – limit the time or play an agreed score (say up to seven PARS scoring) necessary.  
**A3** – Change sides/players but use same routine (maybe use ‘winner stays on’).  
**A4** – Introduce the next routine – at any time, players can attack with a drop shot or defend/attack with a lob (straight). |

</table>
**Alley/Channel Games:**

- Essentially alley games are a way of occupying four players on opposite sides of the court.
- Players play in pairs along one side wall – either FH or BH.
- An imaginary line can be drawn (or use throw-down lines) to divide the court into two halves from the half-court line through the T to the front wall – players play in the shaded areas (as per diagram below).
- The use of alley games encourages games/practices to assist with straight shots (ie lobs, drop shots, drives, volleys, volley drops etc) and to practise dealing with shots that are in close proximity to the side walls.

**FULL ALLEY/CHANNEL MATCHES**

![Diagram of Alley/Channel Matches](image-url)

**Lobs – FH and BH**

**Key points to look for:**

- Lobs are high shots that hit the front wall as near as possible to the top (out of court) line.
- Played either FH/BH – the key point is to make the ball go over the opponent's head and bounce before the back wall (as close as possible to the walls if played straight and via the side wall if played cross-court).
- The racket face should be as open as possible to lift the ball high, with the racket following a low to high trajectory – played with a relatively firm wrist for feel and control.
- Lobs have the following priorities:
  - as a minimum – over opponent's head
  - over their head and bouncing before the back wall
  - over their head, hitting the side wall and then bouncing before the back wall
  - as a winner – over their head, hits the side wall and dies in the back corner (irretrievable).
Lob Serve – advantages:

• Difficult for serve returner to keep trying to put pace on a slowly travelling ball (tiring).

• A good lob serve frequently causes a weaker return (on the volley), especially if the serve has hit the side wall first and dropped down.

• After the ball has hit the side wall (if travelling slowly), it loses pace, drops and changes direction – this causes problems for the returner trying to deal with all three alterations in the ball’s flight.

Drop Shot
Key points to look for:

• Correct grip – essential for good control of the racket face and trajectory of the ball.

• MOST IMPORTANT – slower shot for control.

• Racket face pointing towards ‘target’ and at a slight angle (open face).

• Swing path high to low – towards the target, ball must travel downwards from racket.

• Body position – shoulder pointing to target, right foot forward if RH, left foot forward if LH.

• Impact (hitting) point level with leading leg (whichever one).

• Timing of hit – just after the ‘top’ of the bounce, as ball just begins to drop.

• Ball should hit the front wall then bounce on the floor and hit the side wall as low as possible near the nick (join between the side wall and floor).

Drop Volley:
Key points to look for:

• A drop volley is a volley played with swing path high to low – effectively placing the ball just above the tin (a downward direction).

• Drop volley needs to hit the front wall, then the floor, then the side wall as low as possible.

• Ideally, the ball should be directed towards the front two corners (either FH or BH).

• It is most effective when played as a winning shot or to put the opponent under as much pressure as possible when retrieving.

• Drop volley can be played straight or cross-court.
**Holding the Shot**

**Key points to look for:**

- Holding the shot is basically where the player has their racket ‘ready’ to play the shot but delays it until the last possible moment, causing the opponent to stop moving (and lose momentum) in order to wait until he knows the destination of the shot.
- Holding the shot allows for a change of direction of the shot at the last minute in direct relation to where the opponent has started to move in anticipation of where the shot might end up.
- Holding the shot therefore aids disguise and is to be very much encouraged.
- Holding is, however, a lot easier when the opponent has played a bad shot and the hitter will have correspondingly more time to make a more conscious choice of shot placement.
### Key Stage 4 – Medium-term Plan – Specific Squash Skills – Year 11

<table>
<thead>
<tr>
<th>KEY STAGE:</th>
<th>YEAR:</th>
<th>FOCUS: Develop an appreciation and understanding of the application of more advanced tactical strategies to wear down, outwit or outmanoeuvre opponents. Also aid understanding of GCSE squash assessment criteria.</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>11</td>
<td></td>
</tr>
</tbody>
</table>

#### Programme of Study

<table>
<thead>
<tr>
<th>LEARNING OBJECTIVES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pupils should be taught to:</td>
</tr>
<tr>
<td>1 use practice routines in alleys and ¾ court games to apply a variety of tactical strategies</td>
</tr>
<tr>
<td>2 use the principles of outwitting, wearing down and outmanoeuvring when planning, analysing and improving their performance in practice routines and games</td>
</tr>
<tr>
<td>3 recognise when tactical strategies are being used against them and how to counter those strategies when involved in practice routines and game situations</td>
</tr>
<tr>
<td>4 concentrate on the application of tactical strategies when under pressure or to apply pressure.</td>
</tr>
</tbody>
</table>

Pupils should be able to:  
1 **learn** how to use different shots in specific sequences to apply a variety of tactical strategies  
2 **acquire** the necessary technical skills to make tactical strategies effective in relation to their opponent and how this helps to win a rally  
3 **develop**:  
   a) specific racket skills in relation to the use of width, length, height and depth  
   b) a further degree of the use of disguise to outwit opponents  
4 **recognise** their own and others' strengths and weaknesses in relation to specific areas of the court, **ie is opponent weaker in one corner than another?**  
5 **analyse** their own and others' work in relation to **tactical information given**  
6 understand GCSE assessment criteria (if relevant).  

#### Focus on Language (Literacy)

<table>
<thead>
<tr>
<th>LEARNING OUTCOMES (Assessment Focus)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pressure, momentum, variation of pace, application of tactics, mental control, concentration, focus, anticipation, deception, perception, shot selection, disguise, holding the shot</td>
</tr>
<tr>
<td>Through isolated skill practices, structured activities and competitive situations, pupils should be taught to:</td>
</tr>
</tbody>
</table>
| 1 refine and adapt existing skills  
2 appreciate the specific techniques necessary to use a variety of tactical strategies and their appropriate application (when)  
3 construct specific game plans in relation to the strengths and weaknesses of the opponent they are playing or about to play  
4 assess the effectiveness of tactical strategies and to know how and when to change them when not working  
5 be able to recognise more obvious patterns of play when watching and analysing their own and others' performances  
6 be able use the information gathered to develop areas of their game that are weaker and require correction and subsequent improvement. |

#### Assessment Criteria

- Acquiring and developing skills  
- Selecting and applying skills, tactics and compositional ideas  
- Evaluating and improving performance

#### Inclusive Practice

- Open-ended task setting  
- Pupils compete against those of similar ability  
- Variety of tasks and successes  
- Variety of progressions  
- SEN/LSA support

#### Risk Assessments

- Correct footwear and clothing (removal of jewellery)  
- Safety and awareness of others when practising in more confined areas (alleys)  
- Court surface free from obstructions  
- Equipment/targets set out correctly  
- Greater use of lets and strokes to ensure less likelihood of injury as games become more vigorous  
- Ensure correct warm-up is carried out prior to activities  
- Use of correct eye safety wear (goggles)
<table>

<tr>
<th>WEEK</th>
<th>THEME</th>
<th>LEARNING OBJECTIVES</th>
<th>SUGGESTED PRACTICES</th>
</tr>
</thead>
</table>
| 1    | Tactics (1)                   | recap basic tactics and their use and application to form the structure of an effective game of squash | Warm-up – Dependent on the number of courts – split into small groups (using one half of the court) – one leader using dynamic warm-up activities and stretches (10 minutes). After warm-up, discuss what happens when you get tired, ie mind and body fatigue and how this affects performance and ability to execute tactical strategies (ie pressure creation through application of pace) – see resource sheet (average length of rallies).  
A1 – Recap basic tactics (see resource sheet) – using alleys, explore tactics relating to length and height. Start (in pairs), one player plays to the back, other plays short and long – swap jobs after 5–7 minutes.  
A2 – Develop above activity into both players playing long, long, short – serve return is first long shot (use throw-down lines or cones as a target for a good length).  
A3 – After specified time or score, move winners up one court and the loser moves down (four rounds).  
A4 – Discuss application of other tactics – play using ¾ court and practise using different strategies.  
Game – In twos, practise using tactics in game situations.  
Summary – Why are tactics important? Because each player has different strengths and weaknesses – the art of playing squash? Develop a squash brain! |
| 2    | Tactics (2)                   | recognise the importance of applying a variety of more advanced tactical strategies to outwit, pressurise or outmanoeuvre an opponent | Warm-up – As for week one (above), different leader, different activities, plus add ghosting in 30-second bursts.  
A1 – Introduce more advanced tactics (see resource sheet) (eg application of pressure by pace variation).  
A2 – In pairs, using alleys, one tries to play fast (lots of pace and volleys), other tries to slow pace down using height and softer shots. Discuss why it is difficult.  
A3 – Using alleys again, one tries to hit every shot below the line, other plays every shot above – discuss effect.  
A4 – In ¾s, try to play disguised shots and late boasts to twist and turn opponent (effective against tall players – why?).  
A5 – Ask group ‘How do you build a rally?’ (See resource sheet.) Use ¾ court.  
A6 – What is a set-up shot? (See resource sheet.) Using ¾, try to apply tactic.  
Games – Pick a more advanced tactic and try to apply it – others watch game and try to analyse what tactic each one is attempting to use. (Is it obvious?)  
Summary – What is the difference between a basic and more advanced tactic? How do you decide which tactic is appropriate? What advice would you give a teammate in between games? |
| 3    | Practice routines and game strategies (4) | use a variety of practice routines and apply a range of tactical strategies to gain an advantage to win the rally (and ultimately the match!). | Warm-up – After gentle warm-up using dynamic stretches – run three sets of 20 court sprints (one minute per 20 sprints) with 45 seconds’ rest in between each set!  
A1 – Using alleys as racket warm-up activities – in pairs, both players hit every ball above the line to the back (4–5 minutes) and then swap partners – repeat for three ‘rounds’. |

<tbody>
<tr>
<td>4</td>
<td>Movement and positional skills (2)</td>
<td>Pupils should be able to recognise the importance of improving movement and positional skills through greater awareness of body posture, balance and flexibility.</td>
<td>Warm-up – After gentle warm-up using dynamic stretches – run three sets of 20 court sprints (one minute per 20 sprints) with 45 seconds’ rest in between each set. A1 – Revise ghosting in terms of the technical and fitness aspects, personal and spatial awareness etc (see resource). A2 – Split groups into fours and get them to compose a ghosting circuit (see movement video clips). A3 – Using same groups to compose ghosting and hitting circuits with a range of shots (eg drive, volley, drop shot, boast). Time periods and shot numbers can vary to give it a limit (see video clip – Ali Walker and Peter Barker). A4 – Using reciprocal coaching, two play and others mark them on the quality of their movement and positional skills and whether that affects the outcome of the rally/match. Games – How does movement get affected by fatigue? Summary – Use Q&amp;A – remind class of the need to improve fundamental movement skills – agility, balance, coordination and speed.</td>
</tr>
<tr>
<td>5</td>
<td>Intra-school Competition School Games Level 1</td>
<td>Split group into teams of five (could be mixed or same gender, depends on group composition).</td>
<td>Using team match format, players play other teams in ranked order – team with most points wins. Use score sheets to referee/mark matches (sample in resource).</td>
</tr>
<tr>
<td>6</td>
<td>Inter-school Competition School Games Level 2</td>
<td>Whole year group compete in teams of five boys and five girls.</td>
<td>Using team match format, players play other teams in ranked order as above – ‘school’ team with most points wins. Use score sheets to referee/mark matches (sample in resource – Year 8).</td>
</tr>
</tbody>
</table>
Recap of Basic Tactics – explanation

- Receiver in ready position? Are they watching ball or wall? This is known as ‘tracking’. Because this will help them move into the correct position to hit the ball where they want it to go.
- Do they dominate the centre of court (T-Zone)? The T-Zone is the best place to dominate a rally – equal distance from anywhere on the court.
- Where are they hitting the ball in relation to their opponent? The further away they hit it from their opponent, the more tired he becomes!
- Straight hitting makes the opponent move more than you! Cross-court hits go back to where they are standing.
- Hit a good serve – no mistakes! And vary if opponent dealing easily with serve (pace/direction).
- Is your opponent always hitting the ball back to you? What are they doing? Be clever – be aware of where you opponent hits most of their shots.
- Who is controlling the rally and why? If opponent – most likely cause is that you are hitting the ball back to them all the time!
- How can you/we change things if we are losing? Change the direction, pace or shot you are hitting, ie on to their worst shot – backhand?
- Is your partner/opponent left or right handed? Are they better at backhand or forehand or better in one corner or worse?

Mental Strength:

- To be strong-minded when playing sport is very important. Determination and ‘a never say die’ approach often work as your opponent begins to believe that they can’t beat you.
- Never give up even when match ball down – you can still win from that point!
- Mental strength also comes from being prepared properly before you play – have you done enough practice to be at your best for the match?
- Mental strength comes from the knowledge that you are ‘fit enough’ to last a tough match.
- Mental strength comes from a history of winning and confidence in your ability.
- Mental strength comes from self-belief – if you think you can do it, you probably can!
- Mental strength comes from dealing with the pressure of a match well; not letting anything upset you or deter you from your aim!
Good Movement and Positional Skills:

- Good positional and movement skills are essential if the players are to improve and progress to GCSE standard.
- An overt awareness of the development of these skills can be broken down into the fundamentals of movement (agility, balance and coordination).
- The movements required at this level (Year 9 and above) are more complex and integrated – good shot production and execution of selected tactical strategies will only be possible if players are taught the importance of body control and awareness.
- The variance of the T-Zone is an example of how the awareness of good positional and movement skills can be demonstrated. Players need to be able to ‘read the game’ and anticipate which shots may be played by their opponents and move early to cover their shot options, i.e., if the ball is tight to the side wall, how many options is their opponent likely to have?
- Ghosting alternated by playing a shot are good ways of improving efficiency of movement and positional skills.

Personal Awareness:

- Linking in to the above – the players need to be encouraged to develop a kinaesthetic awareness of their personal movement skills/abilities – one of the best ways to do this would be to video the players and then illustrate how their bodies are reacting to either the ball, their opponent or other stimuli (equipment, clothing, court surface, nerves etc).
- At this stage, overall fitness becomes much more important due to growth, age and body somatotype – specific training programmes could be devised to address salient issues.
- A good knowledge of the basics of fitness would be very useful to understand why and how the body reacts as it does.

Spatial Awareness:

- The awareness and proximity of opponents in a small confined space such as a squash court is another factor that affects shot selection and the execution of tactical strategies.
- Players should be encouraged to become more aware of the ‘spaces’ that are created on a squash court – often described as ‘physical chess’, squash requires a high degree of anticipation of an opponent’s likely future moves and potential shot choices.
- It is a danger if the players are coached too much and lose the ability to decide for themselves which shot is more appropriate in exact relation to where their opponent is standing.
- Awareness of the opponent’s state of mind and fitness level also affects their potential shot choices and ability to move around the court.
- Knowing where and how to move around the court is essential if the player is to develop to their full potential, and their ability to begin to read the game and predict their opponent’s next likely move arises from gaining experience at higher levels of the game.

Ghosting and Hitting:

- The essentials of ghosting were explained in the resource sheet for Year 7.
- Simple ghosting and hitting requires one feeder and one hitter. The idea is for the hitter to complete one ghost movement followed by playing a designated shot, i.e., a backhand ghost played in the backhand corner followed by a movement to the T – the feeder then gives a simple feed for the hitter to hit a forehand drive (could be varied by a tougher feed and adding a target for the drive).
Rally Length – Statistics

- Mean match length: Male: 52 minutes; female 44 minutes.
- Mean rally length: Male: 20 seconds (4–86 seconds); female: 17 seconds (5–65 seconds).
- Mean time between rallies: Male: 13 seconds; female: 14 seconds.
- Mean rallies per game: Male: 26; female: 24.
- Mean shots per rally: Male: 14; female: 11.
- Mean heart rate: 85% of max.

The above statistics will have implications for the type of coaching methods used and their relevance to the player themselves (level of fitness).

Patterns of Play – levels 1–3

Level 1

At Level 1, the player in front generally plays short and the player behind plays long. These emphasise fundamental shot-selection decision making. No options are available. Drill starts with players driving along a wall:

1. Straight drive if behind, boast if in front; when presented with an opportunity, player behind chases down boast and cross-court drives off boast: Repeat FH and BH.
2. Straight drive if behind, boast if in front, straight drive off boast: Repeat FH and BH.
3. Straight drive if behind, cross-court drop if in front, cross-court drive off drop: Repeat FH and BH.
4. Straight drive if behind, cross-court drop if in front, straight drive off drop: Repeat FH and BH.
5. Straight lob if behind, boast if in front, cross-court drive off boast: Repeat FH and BH.

Level 2

At Level 2, we begin to build in the options. As with Level 1, all drills begin with trading drives or lobs to length. At Level 2, the behind player may hit straight or cross-court. The player in front, as usual, attacks. However, the behind player, responding to the attack, has a choice. That player may straight drop or hit straight or cross-court out of the front.

1. Straight or cross-court length if behind, player in front attacks with a cross-court drop, behind player responding to attack straight drops, the attacking player covers the drop with a straight or cross-court length.
2. Straight or cross-court length if behind, boast if in front, behind player covers with a straight drop, attacking player covers drop with a straight or cross-court length.
3 Straight or cross-court length if behind, player in front attacks with a cross-court drop, behind player responds to attack with a straight or cross-court length.

4 Straight or cross-court length if behind, boast if in front, behind player covers attack with a straight or cross-court length.

5 Straight or cross-court lob if behind, cross-court drop if in front, behind player covers drop with a straight drop, attacking player covers drop with a straight or cross-court lob.

Level 3

At Level 3, both players are given a choice of two options for each stroking decision. This begins to place a premium on deception and the recognition of deception.

1 Straight or cross-court lob if behind, cross-court drop if in front, behind player covers the drop with a straight or cross-court drop, attacking player covers the counter-drop with a straight or cross-court lob.

2 Straight or cross-court lob if behind, boast if in front, behind player covers boast with a straight or cross-court drop, attacking player covers the counter-drop with a straight or cross-court lob.

3 Straight or cross-court length if behind, cross-court drop if in front, behind player covers the drop with a straight or cross-court drop, attacking player covers the counter-drop with a straight or cross-court lob.

4 Straight or cross-court length if behind, boast if in front, behind player covers the boast with a straight or cross-court drop, attacking player covers the counter-drop with a straight or cross-court length.

5 Straight or cross-court lob if behind, cross-court drop if in front, behind player covers drop with a straight or cross-court drop, attacking player covers the counter-drop with a straight or cross-court drive.
GCSE Assessment Criteria

1.1: Practical performance
All students need to offer performances, in practical contexts, in the role of either player/participant, official or leader.

• GCSE (Short Course) in Physical Education students are required to offer two performances, in practical contexts, in the role of either player/participant, official or leader. At least one of the two performances must be in the role of player/participant.

• GCSE in Physical Education students are required to offer four performances, in practical contexts, in the role of either player/participant, official or leader. At least two of the four performances must be in the role of player/participant.

Task 1.2: Player/participant
Students must:
• know about the rules/regulations of selected physical activities, and how these relate to, and affect, participation
• demonstrate effective and suitable skills, in isolation and/or competitive situations, as appropriate.

Task 1.3: Official
Students must:
• understand the role(s) of officials in selected physical activities
• know, and be able to apply, the rules/regulations of selected physical activities
• understand, and be able to apply, principles relating to fair play in selected physical activities
• demonstrate effective, and suitable, officiating skills in selected physical activities (under supervision of a qualified/suitable individual where appropriate), including controlling a competitive situation or managing an event.

Task 1.4: Leader
Students must:
• understand the role(s) of leaders in selected physical activities
• understand, and be able to apply, principles relating to fair play in selected physical activities
• demonstrate effective leadership skills in selected physical activities (under supervision of a qualified/appropriate individual where appropriate), including: taking responsibility for the training and preparation of an individual/team for competitive situations in a selected physical activity; supporting players/participants in the performance of a physical activity with due consideration to health and safety issues.
Advanced skills developed in structured play to enable students to perform in the context of the assessment

Grips and their uses

**Basic shots:**
- forehand and backhand drives
- grip
- swing
- racket head up
- follow-through.

**The service:**
- forehand lob (floating service)
- forehand hard hit service
- backhand service
- return of service.

Attacking and defensive shots (forehand and backhand): the volley; the boast; the drop shot; the lob.

**Fundamentals of movement:**
- watching
- footwork
- balance
- readiness
- returning to the T
- anticipation
- deception.

Application of advanced skills in a structured game situation providing the basis for the assessment of the individual student

- Stroke restriction and court restriction drills.
- Structured rallies and plays.

**Tactics**
- Use of side walls and angles to outmanoeuvre an opponent.
- Width and length (switching).
- Anticipation.
- Deception.

**Laws of the game and their application**
- Knowledge of court layout and use.
- Marking and refereeing.
GCSE Assessment Criteria for Squash – Player/Participant

1 Player/participant:

0 Performance not worthy of credit.

1–2:
Poor technique when playing either forehand or backhand drives. Shots lack power and often land in the middle of the court. Serves are erratic and student has difficulty in getting the ball to land in the correct area. Unable to influence game. Makes very limited contribution with skills not in evidence during play. Understanding of tactics is poor. Is content just to get the ball back. Participation in game minimal. Only returns shots within reach. Needs guidance on where to stand in the court to serve/receive from. Has difficulty in maintaining a rally and returning serve, especially on backhand.

3–4:
Able to play forehand and backhand drives with recognisable technique although the power and accuracy may be inconsistent, especially on the backhand side. Uses the boast but with limited effect. Volleys are attempted and some may work. Serve played to intended area though with some errors. Able to maintain rally but technique under pressure is poor. Has tendency to maintain rally by playing forehand shots (even when on backhand side of court). Stands correctly to receive serve, but placement of ball and subsequent movement is poor. Can score, but not sure of lets/strokes.

5–6:
Grip is usually correct and effective. Able to rally continuously on either wing though some drives may lack distance and accuracy. Can use the boast to outwit opponent but is less successful when the ball is close to the back wall. May use volleys to maintain a rally, but success on the backhand side may be limited. Shows good variety of serves accurately placed with power. Lobs and drop shots may lack distance and control. Uses a variety of shots although still a measure of responding to opponent rather than creating/engineering opportunities. Pressure of game causes loss of accuracy. Displays some tactical awareness of use of the T.

7–8:
Good grip and racket movement. Technically correct, low drives to both sides with good length and showing the ability to change the direction of the ball (playing a straight drive from a boast). Uses volley effectively though with some errors, in an attempt to dominate the T. Shows variety of serve to forehand and backhand with good length and weight. Makes effective use of the boast, drop shot and lob. Volleys played at appropriate times to speed up game or prevent ball reaching the back of the court. Brings disguise into game, especially when positioned at the front of the court. Exerts considerable influence on the game. Plays full range of shots with accuracy. Shows tactical awareness by creating a winning opportunity. Can vary the pace of the game according to the strength and weakness of the opponent.

9–10:
Good technique for all shots and correct grip. Excellent straight drives, both forehand and backhand, are played close to the side walls. Can ‘kill’ the ball both straight and cross-court. Makes effective use of the boast to retrieve the ball from the back corners and thus regain control of the rally. Uses a variety of volleys to dominate the rally and move the other player around the court. Good effective serves are played to vary pace of game and allow the server to dominate the T. Varies serve and choice of shot depending on opponent's weaknesses. Able to change the pace of the game by using the lob, drop and boast to outmanoeuvre opponent, giving time to recover or capitalise on opponent's weaknesses.
Able to wrong-foot opponent by using disguise. When playing an opponent of similar ability, the student is content to play long rallies wearing down their opponent and waiting for right opportunity to play the winning shot. Makes very few unforced errors.

2 Leader:

0 Performance not worthy of credit.

1–2:
The student demonstrates a very basic level of performance, helping the teacher deliver a practical session for beginners at an extra-curricular club/junior section of a club. They can help to set up activities within a session and play a minor role in encouraging participants. The student may identify some obvious strengths or areas for development but will be unable to make any evaluation. The student will lack confidence, displaying very limited organisational and communication skills.

3–4:
The student demonstrates a basic level of performance in the role of a leader's assistant during a number of training/practice sessions for an extra-curricular club/junior section of a club. They can help to set up skills practices within a session and take an active role in encouraging participants during a fitness session. The student can identify and evaluate only the very basic strengths and areas for development. The student will lack confidence, displaying limited organisational and communication skills.

5–6:
The student demonstrates their ability to assist in the planning and delivery of a number of training/practice sessions for younger students, individual participants/a group/team at a club. They can plan a skills practice within a session and lead part of a fitness session. It will be evident that the performance of the group/team or individual has made some improvement. The student
can evaluate performances, indicating strengths and areas for development, and is able to give some helpful feedback.
As a leader, the student will be confident in certain situations, displaying some good organisational and communication skills.

7–8:
The student demonstrates their ability to plan and deliver a number of training/practice sessions for junior individual participants/a group/team at a club.
They can plan basic skills practice/fitness sessions. It will be evident that the performance of the group/team or individual has made some improvement. The student can evaluate performances, indicating strengths and areas for development, and is able to give some positive feedback.
As a leader, the student will be confident in most situations, displaying good organisational and communication skills.

9–10:
The student demonstrates their ability to plan and deliver a number of training/practice sessions for individual participants/a team representing, for example, a centre/junior club/region.
They can plan advanced skills practices and fitness sessions aiming to improve the performance of the group/team or individual. The student will accurately pinpoint a performer’s strengths and areas for development and be able to give detailed feedback.
As an inspirational leader, the student will be confident and highly organised, and display excellent communication skills.

3 Official:

0 Performance not worthy of credit.

1–2:
The student has very limited knowledge and understanding of the rules/laws/regulations and safety issues related to the selected physical activity.
They may be able to apply some of them at an appropriate performance level but their communication, positioning and signalling skills will be poor, and they will lack the confidence to assert any authority.
The student may carry out a limited number of their responsibilities in the role of an official’s assistant according to the relevant governing body’s code of conduct.

3–4:
The student has basic knowledge and understanding of the rules/laws/regulations and safety issues related to the selected physical activity.
They may be able to apply some of them at an appropriate performance level but their communication, positioning and signalling skills will be limited, and they may lack the confidence to assert authority in certain situations.
The student may carry out some of their responsibilities according to the relevant governing body’s code of conduct, under the guidance of a qualified/experienced official.
5-6:
The student has sound knowledge and understanding of the rules/laws/regulations and safety issues related to the selected physical activity. They will have the ability to apply them at an appropriate performance level. They will display satisfactory communication, positioning and signalling skills and have the confidence to assert some authority by making well-informed and accurate decisions in some situations. The student will carry out their responsibilities according to the relevant governing body’s code of conduct in most aspects of their role as an official. They may have gained a recognised qualification to officiate at beginner level.

7–8:
The student has good knowledge and clear understanding of the rules/laws/regulations and safety issues related to the selected physical activity. They will have the ability to apply them at an appropriate performance level. They will display good communication, positioning and signalling skills and have the confidence to assert authority by making quick, well-informed and accurate decisions in most situations. The student will carry out their responsibilities according to the relevant governing body’s code of conduct in most aspects of their role as an official. They may have gained a recognised qualification to officiate at an intermediate level.

9–10:
The student has thorough knowledge and very clear understanding of the rules/laws/regulations and safety issues related to the selected physical activity. They will have the ability to apply them at a high performance level. They will display excellent communication, positioning and signalling skills and have the confidence to assert authority by making instant, well-informed and accurate decisions in any given situation. The student will carry out their responsibilities according to the relevant governing body’s code of conduct in all aspects of their role as an official. Where timekeeping/scoring forms part of the role, this should be completed accurately, according to recognised procedures. They may have gained a recognised qualification to officiate at either junior/youth or adult club level.
### Further Information

**ESR Coach Education Qualifications, Workshops and Resources**

#### Awards and Qualifications

**ESR Teachers Award**

A three-hour workshop for teachers, trainee teachers and adults other than teachers (AOTTS) wishing to introduce important generic sport and squash-specific skills in a fun and inclusive school environment (curriculum and extra-curricular time), without the need for a squash court.

**Course Fee:** £25 per person (minimum of 6–8 teachers)

**To book a place, contact:**
Julie Clark  T: 07818 591 189  E: julie.clark@englandsquashandracketball.com

**For further information, contact:**
Gayle Pink  T: 07855 482 529  E: gayle.pink@englandsquashandracketball.com

**ESR Leaders Award**

A six-hour course for 14-year-olds and above to work as a leader/assistant to qualified squash coaches or teachers in a school or club environment. The award looks at using Mini Squash and the ESR Game Cards as a resource to lead squash and racketball activities and games. The course is ideal for people who don’t yet feel confident to do their ESR Level 1 Award in Coaching or who are not yet old enough.

**Course prerequisites:** 14 years of age

**Course Fee:** £75 per person (minimum of eight learners)

**To book a place, contact:**
Julie Clark  T: 07818 591 189  E: julie.clark@englandsquashandracketball.com

**For further information, contact:**
Gayle Pink  T: 07855 482 529  E: gayle.pink@englandsquashandracketball.com

**ESR Level 1 Award in Coaching**

A two-day award designed to provide learners with the required ‘how to coach’ and ‘what to coach’ skills to deliver group coaching sessions to a variety of different participants. The award also looks at how to create an effective squash and racketball community, to increase participation, and enhance and develop players, clubs and facilities. A qualified ESR Level 1 coach can coach Mini Squash, squash and racketball independently to groups of beginner players of any age, as long as activity is based on the Level 1 coaching resources.

**Course prerequisites:** 16 years of age

**Prerequisites to certification:** ESR Disclosure and Barring Service (DBS) enhanced disclosure, and safeguarding and protecting children workshop or online course

**Course Fee:** £190 plus £50 ESR coach membership

**To book a place, contact:**
Julie Clark  T: 07818 591 189  E: julie.clark@englandsquashandracketball.com

**For further information, contact:**
Gayle Pink  T: 07855 482 529  E: gayle.pink@englandsquashandracketball.com
Level 2 Certificate in Coaching Squash and Racketball

A four-day contact time qualification to enable coaches to learn the ‘how to coach’ and ‘what to coach’ skills to coach all components of the ESR Player Model (technical, tactical, physicality, mentality and lifestyle) at beginner and club to intermediate level to both juniors and adults. The qualification also looks at what constitutes an effective squash and racketball environment to increase participation, and enhance and develop players, clubs and facilities.

Course prerequisites: A Level 1 coach, 17 years of age, ESR DBS enhanced disclosure, safeguarding and protecting children workshop or online course and a first aid award

Course Fee: £350 plus £50 ESR coach membership (if lapsed)

To book a place, contact:
Marie Gook  T: 0161-438 4324  E: marie.gook@englandsquashandracketball.com

For further information, contact:
Gayle Pink  T: 07855 482 529  E: gayle.pink@englandsquashandracketball.com

Level 3 Certificate in Coaching Squash

A 10-day contact time qualification to enable coaches to analyse, develop and deliver individualised seasonal and weekly plans covering all components of a player’s personal development to both juniors and adults at beginner, intermediate and advanced level (county and area academy). The qualification is delivered across a season in three blocks of four, three and three days. It is hosted at Lilleshall National Sports Centre and is residential.

Course prerequisites: A qualified Level 2 coach, 18 years of age, attendance at a Level 3 pre-assessment day, ESR DBS enhanced disclosure, safeguarding and protecting children workshop or online course and a first aid award

Course Fee: £1500 (includes accommodation, food and refreshments)

To book a place, contact:
Marie Gook  T: 0161-438 4324  E: marie.gook@englandsquashandracketball.com

For further information, contact:
Paul Carter  T: 07855 482 529  E: paul.carter@englandsquashandracketball.com

Racketball Coaching Award (for non-qualified squash coaches)

A two-day award designed to provide learners with the required ‘how to coach’ and ‘what to coach’ skills to target the development and coaching of racketball to different participation groups.

Course prerequisites: 16 years of age

Course Fee: £190 plus £50 ESR coach membership

To book a place, contact:
Julie Clark  T: 07818 591 189  E: julie.clark@englandsquashandracketball.com

For further information, contact:
Gayle Pink  T: 07855 482 529  E: gayle.pink@englandsquashandracketball.com
Conference, Clinics and Workshops

Coaching is fundamental to the future of squash and racketball, and we deeply appreciate your time and commitment in training and working as a coach. A coaching qualification is often just the start of your coaching journey; therefore the ESR Coaching and Performance department has developed a number of opportunities to communicate, help and support you in your ongoing coach development.

ESR Conference

The ESR Coaching Conference is a fantastic opportunity to witness current methods and approaches utilised by the ESR Coaching and Performance team and to share and discuss your own experiences, practices and philosophies. The agenda promises to deliver informative, varied and original perspectives on coaching practices, theories and methodology, and includes keynotes and seminars from the English Institute of Sport, ESR Coaching and Performance team and Team England players. The evening dinner incorporates the ESR Annual Awards, an initiative designed to acknowledge, thank and reward squash and racketball coaches and clubs across the country for their dedication, innovation and coaching achievements.

Dates and venue: 10–11 December 2013 at Lilleshall National Sports Centre
Conference cost: £150 (includes food, refreshments, accommodation and awards dinner)
Contact: Louise Pickford  T: 0161-438 4318  E: louise.pickford@englandsquashandracketball.com

Club/County Clinics

The Coaching and Performance seminars provide coaches with an opportunity to witness the current methods and approach utilised by the ESR Coaching and Performance team and to share and discuss your own experiences, practices and philosophies. Team England continues to enjoy significant European and world successes (senior, junior, individual and team), and it is imperative that we share the thinking and methodology behind the success. To continue to produce the greatest squash players in the world, we require the greatest coaches. To be the best in the world, we need to learn faster than our opposition as coaches and players. Paul will deliver bespoke content according to specific coach/club/county requirements.

Workshop prerequisites: A qualified licensed coach
For further information, contact:
Paul Carter  T: 07855 482 529  E: paul.carter@englandsquashandracketball.com

Advanced Coach Development Workshop

A three-hour workshop aimed at Level 2 and 3 coaches, providing practical guidelines on coaching the core technical components of squash, including key coaching points, fault diagnosis and development of the grip, swing and movement for a variety of shots. The workshop uses video clips of a variety of world class and developing players to highlight key technical points.

Workshop prerequisites: A qualified licensed coach
Workshop cost:
To book, contact:
ESR Regional Manager or Marie Gook T: 0161-438 4324  E: marie.gook@englandsquashandracketball.com
For further information, contact:
Paul Carter  T: 07855 482 529  E: paul.carter@englandsquashandracketball.com
Grass Routes Coach Development Workshop
A three-hour workshop aimed at anyone coaching at grass-roots level and as a means of updating old coaching qualifications, coaching knowledge, skills and ideas.

If you completed your Level 1 pre-October 2012, then this workshop will qualify you to deliver Mini Squash, squash and racketball independently to groups of beginners of any age, as long as activity is based on the resources provided.

Workshop prerequisites: A qualified licensed coach

Workshop cost:

For further information, contact:
Gayle Pink  T: 07855 482 529  E: gayle.pink@englandsquashandracketball.com

Squashercise
A three-hour workshop aimed at coaches and fitness instructors wishing to deliver Squashercise. Squashercise is a fitness class for everyone based on the key fitness components of squash and racketball, specific movements and skills.

Workshop prerequisites: A qualified licensed coach or fitness instructor

Workshop cost: £25

For further information, contact:
Gayle Pink  T: 07855 482 529  E: gayle.pink@englandsquashandracketball.com
Coaching Resources

The following coaching resources are available to provide guidance to coaches when delivering programmes in a school or club environment.

To order a resource, contact:
Julie Clark T: 07818 591 189 E: julie.clark@englandsquashandracketball.com

For further information, contact:

ESR Satellite Clubs

Satellite clubs are clubs for 11–25-year-olds located on a school, college or leisure centre site. They are seen as a stepping stone for young people to move from school sport to community clubs. Each county sports partnership will soon have a Club Link Maker as part of its workforce, and they will be key people to help ESR get these set up.

ESR satellite clubs will be linked to a hub club (traditional squash and racketball club) and will be run at least once a week by community club coaches and volunteers. This essentially links the satellite club to the hub club. Satellite clubs should be open to all young people across the community, not just those attending the school or college where a satellite club is based.

The Big Hit

The Big Hit has been developed by England Squash and Racketball as a new development brand to promote squash and racketball to new markets, predominantly in the 18–35 age group. Thebighit.net website launched in January 2013 and has all the information on where you can find your nearest squash courts, sessions that are open to all, videos on how to play the sports, exciting discounts and special offers.

FE College Sport Makers

As part of Active Colleges, Sport England will invest up to £17 million over five years to create 150 full-time sports development professionals – College Sport Makers – working in the further education sector. Their role will be to link colleges with community sport opportunities in order to widen the offer for students; raising student participation in sport and reducing the drop-out of young people from sport, especially at 16 and 18 years old. One of their key roles will be assisting governing bodies of sport in landing their products with college students.
Getting started

- Two players per court.
- Spin the racket to see who is going to serve first.
- A point is scored at the end of every rally and the winner serves to start the next point.
- Players play to the best of five games, each game being the first to 11 points.
- If the score reaches 10 all, then the winner is the first person to achieve a two point lead (e.g. 13-11, 16-14).
- The ball can bounce once on the floor, or can be volleyed.
- A rally can be won if your opponent hits the ball out of court, down, or they are unable to return the ball after one bounce.

Quick introduction

A classic game of singles which could be adapted to play for a set time period or played to more than 11 points. We encourage secondary-aged students to play on a squash court, either at a local club or on a school site. However these intra-school competitions are flexible enough to be adapted and played against a wall in a gym or sports hall or against a mini squash wall.

Think tactics

Assess your opponent: which shots do they struggle to return? How can you play to ensure you win the point?
Organising the game
- The number of points won within a match could be put on a league sheet, so players can gain points even if they lose a match.
- This activity can be run as a one-off activity, or as an ongoing league basis, with different teams competing against each other.
- Leaders could set up and organise the activity or could act as team captains.

Safety
- If players are not playing within a squash court and are using mini walls or gym walls, always take into account the safety issues regarding the number of players playing safely in one space.

Officiating
- This game could be refereed and scored (marked) by the players or leaders.
- If in attempting a shot a player could risk hitting their opponent with the racket or ball, stop and play the rally again. This is known as a ‘let’.

Keep it enjoyable
- If there are large numbers, play for a set time period, e.g. four minutes. Or adapt the scoring, e.g. one game to 15 points.
- Introduce some challenges with players trying to:
  - hit targets or certain areas of the court
  - play the longest rally.

Make it easier
- Use different court sizes as detailed below.

<table>
<thead>
<tr>
<th>Front of court</th>
<th>1/4 of the court</th>
</tr>
</thead>
<tbody>
<tr>
<td>FH or BH</td>
<td>FH or BH</td>
</tr>
</tbody>
</table>

- Use different balls that travel slower and bounce higher.

Think inclusively
- SEN/disabled players can use different equipment to hit the ball, e.g. racketball or mini squash racket.
- The ball can bounce twice for SEN/disabled players who require more time to return the ball.
- Check that wheelchair users can access squash courts. If not, use more accessible environments (as detailed in Quick introduction).
Quick introduction
A great game to involve a number of players on one court. Two players have a rally, the winner stays on court ready to play the next challenger. This is a classic game of singles which could be adapted to play for a set time period or played to more than 11 points. We encourage secondary-aged students to play on a squash court, either at a local club or on a school site. However these intra-school competitions are flexible enough to be adapted and played against a wall in a gym or sports hall or against a mini squash wall.

Getting started
- Three to six players per court.
- Two players have a rally, while the remaining players stand in the safe zone.
- The winner of the rally receives one point and stays on court to receive service from the next challenger.
- The ball can bounce once on the floor or can be volleyed.
- A rally can be won if your opponent hits the ball out of court or defined area, down, or they are unable to return the ball after one bounce.
- The champion of the court is the first person to win 11 points.

Think tactics
Can you identify your opponent’s weakness and try to place the ball in a difficult position for them?
Organising the game
■ Champion of the court can be played using the following different court areas. Playing areas are indicated in yellow and the safe zones in white.

[Diagram showing different court areas
- Front or back of court
- 3/4 of the court
- Channel games]

■ The game can be played as an individual or team competition. For a team competition, players add their points together to achieve a team score.

■ Players waiting in the safe zone can act as scorers or tacticians. Being a tactician gives players a chance to assess the players on court and think about how they might play against them.

Safety
■ If players are not playing within a squash court and are using mini walls or gym walls, always take into account the safety issues regarding the number of players playing safely in one space.

Officiating
■ This game could be refereed and scored (marked) by the players or leaders.

■ If in attempting a shot a player could risk hitting their opponent with the racket or ball, stop and play the rally again. This is known as a ‘let’.

Keep it enjoyable
■ If there are large numbers, use more than one court and play champion of the courts! Set play for a period of time e.g. four minutes and the player with the most points per court moves up onto the next court and the person with the least amount of points moves down a court. Repeat as appropriate.

Make it easier
■ Let players use different equipment to hit the ball, e.g. racketball or mini squash racket.

■ Use different balls that travel slower and bounce higher.

Think inclusively
■ Divide the game into leagues of similar standard players to avoid one player dominating other players and always being the champion of the court.

■ Let the ball bounce twice for SEN/disabled players who require more time to return the ball.

■ Check that wheelchair users can access squash courts. If not, use more accessible environments (as detailed in Quick introduction).

Spirit of the Games:
Excellence through Competition
If you are scoring yourselves, be honest about every call.

Server must have at least one foot in the service box.
The serve must be hit above the middle line on the front wall.
If the ball hits the top red line or above it's out.
The serve must land in the opposite back quarter of the court.

Organising the game
■ Champion of the court can be played using the following different court areas. Playing areas are indicated in yellow and the safe zones in white.

[Diagram showing different court areas
- Front or back of court
- 3/4 of the court
- Channel games]

■ The game can be played as an individual or team competition. For a team competition, players add their points together to achieve a team score.

■ Players waiting in the safe zone can act as scorers or tacticians. Being a tactician gives players a chance to assess the players on court and think about how they might play against them.

■ If players are not playing within a squash court and are using mini walls or gym walls, always take into account the safety issues regarding the number of players playing safely in one space.

Officiating
■ This game could be refereed and scored (marked) by the players or leaders.

■ If in attempting a shot a player could risk hitting their opponent with the racket or ball, stop and play the rally again. This is known as a ‘let’.

Keep it enjoyable
■ If there are large numbers, use more than one court and play champion of the courts! Set play for a period of time e.g. four minutes and the player with the most points per court moves up onto the next court and the person with the least amount of points moves down a court. Repeat as appropriate.

Make it easier
■ Let players use different equipment to hit the ball, e.g. racketball or mini squash racket.

■ Use different balls that travel slower and bounce higher.

Think inclusively
■ Divide the game into leagues of similar standard players to avoid one player dominating other players and always being the champion of the court.

■ Let the ball bounce twice for SEN/disabled players who require more time to return the ball.

■ Check that wheelchair users can access squash courts. If not, use more accessible environments (as detailed in Quick introduction).

Spirit of the Games:
Excellence through Competition
If you are scoring yourselves, be honest about every call.

Server must have at least one foot in the service box.
The serve must be hit above the middle line on the front wall.
If the ball hits the top red line or above it's out.
The serve must land in the opposite back quarter of the court.
Quick introduction
A team game where up to five players try to keep a rally going within a target area. Each player hits the ball once and runs to the back of the queue. We encourage secondary-aged students to play on a squash court, either at a local club or on a school site. However, these intra-school competitions are flexible enough to be adapted and played against a wall in a gym or sports hall or against a mini squash wall.

Getting started
- Mark out court and target areas.
- Four or five players per team.
- Players form a line with the first player behind the starting line.
- Players try to keep the rally going by hitting the ball at a target area against the wall or net, moving to the side then circling to rejoin the back of the line.
- The team sets a target number of consecutive shots to achieve. The team has three attempts to achieve that number.
- Reset the target if too easy or difficult.

Think tactics
How can you play to the strengths of the person following you?
**SQUASH - TEAM RALLY CHALLENGE**

**Organising the game**
- Ensure the playing area and distance to the target on the wall/net matches the ability of the players.
- Players should stand a safe distance away from the hitter.
- Players should move away quickly to let the next player hit the ball.

**Safety**
- If players are not playing within a squash court and are using mini walls or gym walls, always take into account the safety issues regarding the number of players playing safely in one space.

**Officiating**
- This game could be refereed and scored (marked) by the players or leaders.

**Keep it enjoyable**
- Play to a time limit and give each player three lives. A player loses a life for each miss. The player with the most lives left wins.
- If there are large numbers, teams can compete against other teams and the team with the highest number of rallies after three attempts wins.
- Stipulate which shots to play, e.g. only forehands or backhands or even volleys.

**Make it easier**
- Move the target or make the target area bigger.
- Use different balls that travel slower and bounce higher.

**Think inclusively**
- Set appropriate distances for SEN/disabled players to travel.
- Let SEN/disabled players catch and throw instead of hitting the ball against the wall.
- Let the ball bounce twice for SEN/disabled players who require more time to return the ball.

**Spirit of the Games: Excellence through Competition**

Work as a team to achieve the set number of shots.
